a)Dŵr hewl Pontweli...e. bost oddiwrth D. King(C. S. Gâr)at ein Cynghorydd Sir:

Good afternoon Linda,

Many thanks for forwarding the emails and photos. I've just discussed this issue with Tony. The proposal is to install a large manhole chamber in the existing filter drain to better capture / contain the water and also to break into the rock face to direct the water into the chamber. This work has already been completed further up the road and appears so far to be working very well. The construction gang was programmed to undertake the same work at this waterfall however they were re-assigned to other urgent works elsewhere in Tony's area. They are however programmed to return in the next week or two to complete the drainage works. Once completed we would monitor conditions on site to determine whether the works have alleviated the surface water run off issue. In the meantime Tony will arrange for a maintenance team to investigate / clean the existing drains mentioned in the email as necessary. .

Nid yw'r C. Cymuned yn cytuno â'u sylwadau fod y gwaith sy wedi ei wneud yn welliant . Cwestiwn yn codi beth yw'r gwaith sy'n cael ei wneud ar yr hewl dop? Roedd sefyllfa'r dŵr ar y ffordd fawr ddydd Sul y Cadoediad yn ofnadwy, ac fe dynnodd M. Griffiths gyfres o luniau sydd wedi eu hanfon ymlaen i Darren King.
